Year 5 optional homework: It's a mystery!

Your homework is your choice!
You can complete 5 activities over the course of the term.
We expect you to complete each homework task with care and to the best of your ability. Good luck!

The hand in dates:
Choice 1: Friday 2nd February   Choice 2: Friday 23rd February   Choice 3: Friday 9th March   Choice 4: Friday 23rd March

Newspaper editor	Riddle me this	Follow the clues to find the mystery number!
Write a newspaper article about a mystery that either you have invented or that has been in the news.	People love a mind-bending riddle, like this one: I set off on my horse on Friday. I was away for two nights. I returned on Wednesday. How did I do this? See how many people you can catch out with riddle you have thought up.	•The number has two digits. •Both of the digits are even. •The digit in the tens column has a higher value than the digit in the ones column. •The ones digit is not in the three times table. •The tens digit is not double the ones digit. •The sum of the two digits is a multiple of five. Now create some of your own!
Art and Crime	**Free choice!**	**You'll never be 'board'!**
Create a piece of artwork linked to a crime. It could be an artist's impression of a suspect, or perhaps a 3D model of a crime scene.	Create your own homework and write it in here.	Design a mystery, spy or crime board game. You could design using a game such as Cluedo as your inspiration.
Murder mystery	**Criminal or detective?**	**Top trumps**
Create your own murder mystery, much like the demise of poor Tom, the artist. Who will the characters be? Who will be the unlucky victim? What clues will you give your detectives? You could even make your own video, like the one you saw at school.	Plan characters for a spy story, giving a detailed description. What are their character traits? Clothing styles? Distinguishing features? Now write the story!	Create your own top trumps deck based on crime and mystery.
