Ambition Belonging Courage

This week in Drawing Club ...

We have looked at the story 'Owl Babies' By Martin Waddell. The children loved this story and in particular enjoyed re telling the story using our class tuff trays. They used puppets and loved using our new vocabulary to support their story.

The children have also carried on developing their printing skills, by printing with forks to make owl pictures. We loved seeing the effect the forks made. We discussed that it made the owls look fluffy.

The new vocabulary this week - gliding, trio and fluffy.

This week in Maths ...

We have been exploring a new concept, 'parts and wholes'. We have spoken about what is a part of us. For example, our eyes are a part of us. We have looked at how all of these different parts make a whole person.

The children have explored this concept through completing jigsaw puzzles and following simple instructions to create something out of our construction.

This skill will help the children as we look further into the composition of numbers.

Other learning across the week...

We have been exploring our understanding of nocturnal and diurnal animals. Ask your child at home if they can explain what a diurnal animal is. The children have also LOVED exploring the changes that the colder weather is bringing us. They enjoyed the snow flurries on Wednesday and have been exploring how to melt ice they have found in the Learning Garden.

Ways to help at home ...

If you have any puzzles at home see if your child can work to complete the whole puzzle. Also when you are out and about talk to your child about the seasonal changes that are happening.

Christmas Show - **'Simply the Nativity' -**

Tuesday 9th
December starting at
9.30am.

A letter has been sent home about this.

Please can we have named christmas clothes to school by monday 1st December.

We will be giving out tickets for the show very soon!
