

EYFS Newsletter - Friday 19th September 2025

Ambition Belonging Courage

This week in Drawing Club ...

The children have been excited at the introduction of Drawing Club. This is our daily lesson, which gets the children engaged in stories, writing and chances to use their imagination.

This week we have used the nursery rhyme, Humpty Dumpty. The children loved thinking about what happened to the egg, and how they could protect him from cracking.

During these sessions we introduced the children to new vocabulary, this week we have looked at the words; crack, oval and fall.

Ask your child if they can remember the actions for our new words.

This week in Maths ...

We have introduced the children to the word 'subitise'. This is the ability to look at a collection of objects or dots and to know without counting how many there are. For example, when you look at a dice when playing a game you know what the 5 looks like without counting.

The children have been making their own collections up to 5, and have been talking about how they know they have 5.

Other learning across the week...

The children have been enjoying the Learning Garden. They have been hunting for conkers and using them to create amazing pictures. The children have also been exploring 'how to' use our class book corners, thinking about sharing stories and talking through pictures.

Ways to help at home ...

When you go for a walk can you count how many steps you take? Or do you notice any changes in our environment?

Key dates:

PE days -

We are sorry for any confusion!

Our Early Years PE day is a Thursday.
