Ambition Belonging Courage

A big THANK YOU!

We were overwhelmed with the amount of you who managed to attend on Tuesday afternoon for our 'meet the team and tour' event. Thank you so much for joining us on this journey, we are so excited about this year with your children.

Drawing club -

This week we have introduced the children to the world of Drawing Club.

They have listened to the rhyme 'Humpty Dumpty'. They have learnt new vocabulary linked to the rhyme. These words are 'oval', 'fall' and 'crack'.

Every child then attempted to draw their own Humpty Dumpty character. We were so impressed with all of the children. They drew wonderful characters, some small, some big and some of the eggs had crazy hair.

Ask me about ...

Our new safety bibs in the Learning Garden.
Drawing Club and what our magic codes did.
Dough disco and the skills we are learning.

How to help at home...

Talk is key - Spend time talking about how our days have been. Use our 'ask me about' prompts to help start a conversation. Talk to your child about all the things that you have enjoyed in your day.

Stories and Rhymes - Do you have a favourite nursery rhyme that you could share with your child? Talk about why you like it.

Key dates:

1st Oct, 3.30pm -
Phonics meeting in
Early Years

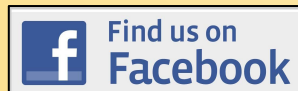

14th/15th Oct -
Parents evenings

Mon 9th Nov - 9am -
Phonics lesson in your
child's class

Thurs 26th Nov - 9am
- Maths lesson in your
child's class

Tues 8th December -
EYFS Christmas show

Ambition Belonging Courage

Key dates:

1st Oct, 3.30pm - Phonics meeting in Early Years

14th/15th Oct - Parents evenings

Mon 9th Nov - 9am - Phonics lesson in your child's class

Thurs 26th Nov - 9am - Maths lesson in your child's class

Tues 8th December - EYFS Christmas show

Maths -

This week we have been exploring pattern and shape. We have been looking at what is a repeating pattern and how we can create one. The children have loved making patterns with our peg boards and multilink cubes. We have also explored some 2D shapes. These have been squares, circles, rectangles and triangles. The children have been on shape hunts to see if they can find any of them in our environment. Perhaps at home you could do the same? What is the most common shape you can see in your house?

Parent Helpers -

Thank you to everyone who has said they would like to help! This is amazing. First step would be to get a DBS (a safety check) so that we can invite you in. If you could please go to the main office, and say you are volunteering to help in Early Years and would like to start the DBS process then the team in the office will be able to talk you through this. As soon as these come back we can talk to you individually about days and times. We are really grateful for your support and help!

Our week in photos...

Any help -

We are currently working on redoing our mud kitchen area. We would love for the children to have access to herbs for them to cut and use in their creations.

If anyone has any herbs that they could donate, or soil we could plant in we would be incredibly grateful! Please talk to your class teacher.

Thank you!
