Dear Parents of Year 3,

In our current DT topic we are going to be creating Bug Hotels with the main DT focus as construction. The children have created some fantastic designs based on what they know about microhabitats and pre-existing Bug Hotels. We placed a big emphasis on using recycled materials for the Bug Hotels to be more eco-friendly. The Bug Hotels will be made from wood provided by school, but if you have any of the following that you could spare for the centre of the Bug Hotels it would be greatly appreciated.

We will be needing:

- Bamboo
- Recycled plastic straws
- Old bricks
- Pinecones
- Straw

Your sincerely,

Mrs Shurmer (DT Subject Lead), Mr Hampson and Miss Kosla
