Year 1 Homework- Summer Term 2022
How can you be a planet protector?

Welcome to your Summer Term Homework.

This term, we are learning about how we can protect and look after our planet, followed by learning about things that grow. We hope you enjoy the ideas and look forward to the children sharing what you have been learning at home. You could email photos to: Year1@billingshurstprimary.org.uk so that we can then share them on the big screen with the other children, or bring your learning in to share. Sometimes there are days when we have more time than others so please do not expect your child to have shown it on the day it comes in. Have a go, try you best and have fun! Happy homework!

Reading
How can we look after our planet?

Could you find a story about caring for our environment to read/share?
Can you find and read some facts about what we can do to help look after our planet?
Bring them in to share with us!

Maths

Multiplication & Division

Can you practise counting in twos, fives and tens? Can you find a group of objects and split them in to groups? How many groups can you make? How many is in each group?

Writing

What can you find out about looking after our environment? Can you make a fact book?
Have a go at retelling your favourite story or writing your own! Remember to include sentences with capital letters and full stops.

Be creative!

Can you create a painting, picture or collage of a flowering plant?
Could you make something out of recycled materials?

Save our planet!

What changes can you make?
Is there anything at home that you could do to help look after our planet? E.g recycle, help to turn lights and devices off that you're not using, reuse things again such a plastic bags, go litter picking!

Science
What could you grow?
Go for a walk – what plants and trees can you see? Can you describe them?
Can you have a go at growing something yourself? What will you need to help it grow? Observe the changes that happen as it grows.
